

NVSL SafeSport Approach

Summer 2024

Impact of SafeSport Act on all sports with athletes who are minors

Protecting Young Victims from Sexual Abuse and Safe Sport Authorization Act of 2017

Limit one on one interaction

Sports organizations must establish reasonable procedures to **limit one-on-one interactions between an adult and an amateur athlete who is a minor...** without being in an observable and interruptible distance from another adult

Abuse Prevention Training

Consistent “**abuse prevention**” training to all adult members who are in regular contact with amateur athletes who are minors, and subject to parental consent, to members who are minors, regarding “prevention and reporting child abuse

Increased Standard of Care

Any organization involved in youth sports held to an increased “standard of care” regarding **reporting, training, policies and procedures, and periodic safety system reviews**

Guidelines

- Presence of more than one adult at every activity
- Take-home/pick-up policy to prevent one-on-one situations with a child who was not picked up by parents after practice
- Define appropriate touching of a child
- Avoid socialization with participants outside of sponsored activities

Successful SafeSport implementation can positively impact our insurance rates
